KOTLURU NOOR BASHA

Python Development Engineer | SAP HCM Integration | AI & Automation | Django

Bangalore, India | +91 8886892680 | noorbashakotluru@gmail.com | LinkedIn Profile

PROFESSIONAL SUMMARY

Results-driven Python Development Engineer with 4.5+ years of hands-on experience building enterprise-grade software solutions, automation frameworks, and AI-powered workflows. Proven expertise in SAP HCM integrations, Django web development, N8N automation, LLM-powered workflow automation, and cross-departmental technical leadership. Adept at translating complex business requirements into scalable, maintainable solutions across HR, Finance, Insurance, and Operations domains.

PROFESSIONAL EXPERIENCE

Python Development Engineer | TASC Business Solutions Pvt. Ltd. — Bangalore, India

DEC 2024 – Present

Tech Stack: *Python, Django, SAP HCM, SAP SuccessFactors, N8N, LLM APIs, REST APIs*

- **Email Communication Engine:** Designed and developed an enterprise Email Communication Engine to automate organizational email workflows, including delivery tracking, error handling, and status monitoring.
- **Django Dashboard:** Built and deployed a production-grade Django monitoring dashboard for real-time visibility into Email Communication Engine and Pay Posting activity, enabling proactive issue resolution.
- **SAP HCM Pay Posting Integration:** Developed automated payroll data flows between internal systems and SAP HCM, reducing manual data entry and reconciliation time by streamlining end-to-end pay posting processes.
- **AI & N8N Workflow Automation:** Designed and deployed N8N automation pipelines integrating LLM APIs to handle content classification and response generation across business units, reducing manual effort and improving process turnaround times significantly.
- **AI Medical Insurance Solutions:** Built an LLM-integrated automation solution for medical insurance processing, combining LLM-based document/data extraction with rule-based validation for eligibility checks and claim processing support.
- **SAP SuccessFactors Support:** Provided ongoing technical support for SuccessFactors-related queries, resolving configuration issues, data discrepancies, and integration challenges for HR teams.
- **System Administration:** Managed admin activities including user account provisioning, password resets, welcome email automation, and access control across enterprise platforms.
- **Cross-Departmental Development:** Led and delivered software development initiatives across 5 business departments, collaborating with stakeholders to build department-specific automation, reporting, and integration solutions.

Software Development Engineer I | Cloud Collab Technologies Pvt. Ltd — Bangalore, India

Feb 2021 – Aug 2023

Tech Stack: *Python, Selenium WebDriver, FastAPI, Django, JIRA, Jenkins, Postman, CI/CD*

- **Test Automation:** Developed and executed end-to-end automated test scripts for web applications using Selenium WebDriver and Python, improving test coverage and reducing regression time.
- **API Development:** Built and maintained RESTful APIs using FastAPI and Django, focusing on scalable and efficient backend architecture.
- **CI/CD Integration:** Integrated automated testing within CI/CD pipelines using Jenkins, enabling rapid feedback on code quality and seamless production deployments.
- **Bug Management:** Streamlined bug tracking and resolution processes using JIRA, reducing average bug resolution time significantly.
- **Manual & Functional Testing:** Conducted manual testing for network management software, covering functional, regression, integration, and API testing disciplines.

KEY PROJECTS

Email Communication Engine & Django Monitoring Dashboard |

- End-to-end email automation system with a Django dashboard for real-time operational monitoring of email flows and pay postings across the organization.

SAP HCM Pay Posting Integration |

- Automated payroll data integration between internal HR systems and SAP HCM, eliminating manual processing and ensuring accurate, timely pay postings.

AI Medical Insurance Automation |

- LLM-integrated insurance processing solution combining LLM-based data extraction with automated eligibility verification and claim support, deployed across the Insurance department.

Class Representative Analytics System | *Academic Project* |

- Full-stack Django web application for academic management including user authentication, product catalog, inventory tracking, and reporting — achieving 30% operational efficiency improvement.

TECHNICAL SKILLS

Languages	Python (Expert), JavaScript, SQL, Java, HTML, CSS
Frameworks	Django, FastAPI, Selenium WebDriver
ERP / HCM	SAP HCM (Pay Posting Integration), SAP SuccessFactors
Generative AI / LLM	LLM API Integration, Prompt Engineering, N8N AI Agent Nodes, RAG & LLM Fundamentals (self-study: transformers, embeddings, RAG pipelines)
Communication	Email Communication Engine, SMTP, REST API Integration
Testing	Manual, Automation, API, Functional, Regression, Integration
Admin / Systems	User Management, Password Reset, Access Provisioning
Methodologies	Agile, Scrum
QA & Automation Tools	Selenium WebDriver with Python, Pytest / Python Automation Frameworks, REST API Automation, SOAP API Testing – hands-on experience
Dev Tools & CI/CD	Git / GitHub, CI/CD / Jenkins, Confluence / TestRail
Domain Experience	Banking / Cards domain experience
Operating Systems	Unix/Linux – hands-on experience

CERTIFICATIONS & COURSES

Completed Certifications

- Python Programming – Python for Everybody — *Coursera*
- ChatGPT Guide: Prompt Engineering Basics for Beginners — *Udemy*
- Programming in Java — *NPTEL*
- Amazon Web Services (AWS) — *APSSDC*
- Google Android Developer — *APSSDC*

Currently Pursuing (In Progress)

n8n The Ultimate Course, Data Structures & Algorithms in Python (DSA), Python Complete Course: 30+ Hands-on Tasks, 100 Days of Code: Complete Python Pro Bootcamp — Udemy; Generative AI & LLM Engineering — self-study (transformer architecture, embeddings, RAG, LangChain/LangGraph)

EDUCATION

KSRM College of Engineering — *Andhra Pradesh, India*

B.Tech, Computer Science and Engineering | GPA: 8.00/10.0 — *Mar 2017 – Jul 2021*

Relevant Coursework: Python, Java, HTML/CSS, JavaScript, SQL, Data Structures & Algorithms

Sri Vidya Darsini Junior College — *Andhra Pradesh, India*

Intermediate (M.P.C) | Grade: 925/1000 — *Jul 2015 – Jul 2017*
